- ❻ Wall of Remembrance in UN Cemetery
- ❼ Peace Park
- ❽ Female diver Village
- ❾ Main Building in Pukyong University

This year marks exactly the 70th anniversary of the establishment of the UN Cemetery. A Korean proverb says that in 10 years, rivers and mountains will change. Seven-decades is the amount of time the world changes seven times. During that period, the change in Korea was beyond imagination. However, the values and symbols of the United Nations Cemetery have not changed at all and are shining brighter.
